Professional Summary

4th-year Computer Science Engineering student at VIT Bhopal with hands-on experience building and deploying full-stack web applications across multiple domains. Proven track record shipping 3 production-deployed projects and contributing to open-source repositories, backed by strong academic performance (CGPA 8.99/10, NPTEL Gold Medal).

Education

VIT Bhopal University, Bhopal, Madhya Pradesh

Bachelor of Technology in Computer Science and Engineering

July 2023 – May 2027

CGPA: 8.99/10

Tagore Academy, Faridabad, Haryana

Class XII – PCM

March 2023

Percentage: 89%

Tagore Academy, Faridabad, Haryana

Class X

March 2021

Percentage: 97.4%

Technical Skills

- **Programming Languages:** C, C++, Java, Python
- **Core CS Subjects:** DSA, OOP, DBMS, Operating Systems, Computer Networks
- **Web & Backend:** HTML, CSS, JavaScript, Flask, Node.js, Express.js, REST APIs, Authentication & Session Management
- **Machine Learning & NLP:** scikit-learn, Pandas, NumPy, Retrieval-Augmented Generation (RAG), LLM APIs
- **Tools & Platforms:** Git, GitHub, VS Code, Render
- **Databases:** MySQL, SQLite, PostgreSQL

Projects

StudyNest – AI-Powered PDF Learning Assistant

- *Flask, SQLite, RAG, LLM APIs, pypdf, Tailwind CSS, Python* | [GitHub](#) | [Live Demo](#)
- Architected a full-stack Flask application spanning 14 pages/views, converting uploaded PDFs into AI-generated quizzes, flashcards, and structured notes via pypdf text extraction and a provider-agnostic LLM pipeline (Anthropic, OpenAI, Gemini).
- Built a retrieval-augmented tutor that chunks source documents and retrieves the most relevant passages per question before generating an answer, keeping responses grounded in the uploaded material rather than model memory.
- Designed 5 distinct quiz formats (MCQ, True/False, Fill-in-the-Blank, Match-the-Following, Short Answer) and an adaptive revision engine that re-targets topics scoring below 60% accuracy across past attempts.
- Implemented a full gamification system – XP, leveling, daily streak tracking, and 6 unlockable achievement badges – to drive engagement and repeat usage.

TrustSeal – NLP-Based Job Fraud Detection

- *Flask, scikit-learn, Bag-of-Words / CountVectorizer, Python* | [GitHub](#) | [Live Demo](#)
- Trained and benchmarked 5 classifiers (Naive Bayes, Logistic Regression, LinearSVC, Decision Tree, Random Forest) on a class-balanced dataset of 1,732 EMSCAD job postings, selecting Random Forest for deployment based on its 90% accuracy and F1-score – the best of all candidates tested.
- Built a Bag-of-Words feature pipeline using **CountVectorizer**, feeding a Random Forest classifier that returns confidence-scored predictions for real-time fraud flagging.
- Shipped a Flask web interface with a real-time input-completion tracker and preloaded sample postings for instant model testing.

PlateMind – Smart Nutrition & Recipe Recommendation App

- *Node.js, Express, bcrypt, Session-Based Auth, HTML/CSS/JavaScript* | [GitHub](#) | [Live Demo](#)
- Built a Node.js/Express authentication layer (register, login, logout, session-check endpoints) with bcrypt-hashed passwords and httpOnly, production-secured session cookies gating access to the app.
- Engineered a transparent recipe-scoring engine that ranks meals by pantry-ingredient overlap, dietary fit, and calorie/protein proximity, with hard exclusion rules for allergens, also powering ingredient-substitution and low-stock “leftover rescue” suggestions.
- Developed 7 interactive pages – dashboard, pantry tracker, recipe browser with detail view, a 7-day × 3-meal planner, grocery list, and preferences – with auto-generated shopping lists from missing ingredients.
- Configured a one-click Render Blueprint deployment (**render.yaml**) provisioning a persistent disk and auto-generated session secret, keeping user accounts durable across deploys and restarts.

Certifications

- **Marketing Analytics** – NPTEL, Gold Medal (2026)
- **Introduction to Machine Learning** – NPTEL, Silver Medal (2025)
- **Intro to Machine Learning** – Kaggle (2025)
- **The Bits and Bytes of Computer Networking** – Google (2025)

Leadership & Extracurricular Activities

- Core Member, Event Management Team, Microsoft Club | **Sports:** Badminton, Table Tennis, Swimming
